LinkedIn: <https://www.linkedin.com/in/ezinwa-victor-80242719>

PROFESSIONAL SUMMARY

Results-driven Mobile Engineer with 7+ years of experience delivering native and cross-platform applications for Android (Kotlin, Java) and iOS (Swift, SwiftUI). Adept in scalable architecture (MVVM/MVI), custom UI/UX, and high-performance multimedia applications. Strong background in mobile SDK development, Bluetooth (BLE), WebSocket communication, and AI/ML integration. Proven ability to lead multi-platform feature delivery and optimize code for performance, accessibility, and reliability across global teams and startup environments..

SKILLS | TOOLS

- Android SDK | IOS SDK
- Kotlin
- Java | JavaScript
- Jetpack Compose | SwiftUI
- Firebase | Crash-analytics
- GraphQL
- CI | CD
- AR Core
- MySQL Lite
- Ktor | WebSocket | UDP | BLE | ESP32
- TensorFlow AI
- iOS | Swift
- Git | GitHub Actions
- Media3 | Exoplayer
- MVVM | MVC | MVI
- JIRA
- Restful APIs
- Kotlin Multiplatform
- Scrum | Agile Development | CI/CD
- Material Design
- JNI | JUnit | Mockito
- Performance Optimization
- UI/UX | Responsive Design | Accessibility
- React Native | Native Wind

WORK HISTORY

Senior Mobile Engineer (Android)

Moniepoint Headquarters — London, United Kingdom,

May 2025 – Present

- Spearheading the end-to-end development of scalable, high-performance Android applications using **Kotlin**, **Jetpack Compose**, and **MVVM/MVI** architectures.
- Collaborated cross-functionally with **Enterprise Architects**, Product Managers, and QA to define system requirements, align on architecture decisions, and ensure delivery of robust mobile solutions.
- Engineered and released native features supporting millions of users while ensuring full **compliance with performance, security, and accessibility standards**.
- Integrated RESTful APIs and third-party SDKs, optimizing **network calls and data handling** for responsiveness and efficiency.

- Leveraged **Figma** for pixel-perfect UI implementation and **Git/GitHub Actions** for automated CI/CD pipelines, reducing release overhead by 30%.
- Established code review processes and enforced clean architecture and testing practices using **JUnit**, **Mockito**, and **Espresso**.
- Drove Android SDK modernization with the latest **AndroidX**, **Media3**, and **Jetpack libraries**, improving stability and feature parity across product lines.
- Championed Agile ceremonies (stand-ups, sprint planning, retrospectives) and mentored junior developers, contributing to team velocity and upskilling.

Senior Mobile Engineer (Android & iOS)

Trust Payments — London, UK

Jan 2025 – April 2025

- Built modular SDKs for Android (Kotlin) and iOS (Swift) for secure fintech PoS systems.
- Implemented biometric and token-based authentication across both platforms.
- Led development of a real-time fraud detection system with live camera feeds.

Senior Mobile Developer (Cross-platform)

CloudChef — San Francisco Bay Area, USA

May 2024 – Jan 2025

- Delivered unified Recipe SDKs with Kotlin/Swift; accelerated partner integration by 30%.
- Combined RGB, IR, and QR camera feeds into Android SDK with Swift wrappers.
- Achieved 15% boost in user retention via performance tuning.

Mobile Developer II (Contract)

SingKing Karaoke — London, UK

Aug 2022 – Oct 2023

- Built ML-driven pitch analysis on Android and ported key features to iOS.
- Developed synchronized lyrics and casting features; increased engagement by 60%.
- Managed dual-platform release cycles and ensured parity in features.

Android Developer I (Contract)

Tribes — Manchester, UK

Jun 2021 – Aug 2022

- Led Jetpack Compose UI modernization and SwiftUI prototyping.
- Reduced API response times and network load through HTTP performance tuning.

EDUCATION

Bachelor of Education: English & Literary Studies, 09/2016 – 05/2020

University of Nigeria – Nsukka, Nigeria

CERTIFICATION

- Hacker rank **Certified Android Developer - 2019**

PROJECTS

- SingKing Karaoke (Kotlin | UI/UX | TensorFlow AI | JNI) - Project Link: [Google Play Store](#) [AppleStore](#)
- Creaview Movie Album (Koltin | Jetpack Compose | Rest Api | SQL) - Project Link: [Google Play Store](#)
- Mood Me (AR Core | ML | Koltin | 3D Scene View) - Project Link: [Google Play Store](#)
- Trust Wallet (Swift UI| Graph QL) - Project Link: [Apple Store](#) [Google Playstore](#)
- Afrik Food Recipe (Koltin | KPM | Java | Firebase | Unit-Test) - Project Link: [Google Play Store](#)

- Shipment demo app (Kotlin)
